LETTER OF RECOMMENDATION

It gives me great pleasure to write this recommendation letter for a master's program at your university for **Mr. DARUKUMALLI LOKESH REDDY**. I have known him for the past four years as my student. I have found him to be self-motivated individually. I observed him keenly as I taught him "**MACHINE LEARNING & NATURAL LANGUAGE PROCESSING**" courses, respectively. While he was studying these subjects, he was active and has full knowledge of those subjects. He is keen on learning something valuable every day. During his four years at the college, I can confidently say that he has evolved into a complete student.

In my view, his academic knowledge, interpersonal skills, and leadership qualities make him one of the most competent students. He perused his course work with good interest, and he has submitted the challenging assignments on time during my teaching. I have observed him as a sincere and hardworking student. I observed that he had a very practical and analytical approach to the subject.

As a person, he is sincere and helpful, and his attitude towards faculty and students is overwhelming. He has excellent communication skills, has a good command of English, and can express his views clearly in oral and written communication, which helps him put forth his ideas effectively. He has a pleasing demeanour and shares a good report with his instructors as well as with his fellow students.

I am confident that he will perform well in his graduate studies. His immense desire to pursue higher studies will make him excel in his career. He will also succeed in his future courses. I strongly recommend him unreservedly for admission to the master's program with possible financial support through possible assistance at your esteemed university.

(Dr. N. SIVARAM PRASAD)
